

WAVE FACT SHEET

kristensen:kristensen®

WAVE

WAVE is designed in collaboration with the Danish furniture and interior design store BoShop. The design is practical and understated, but with a playful touch that conveys a soft and inviting feeling.

Designed by Cecilie Kamp

This range include

Dining tables
Coffee tables

DESIGN DETAILS

Discover the options available for the Wave range, including wood finishes, and edge profiles, allowing you to tailor the design to your needs.

—

EDGE PROFILES

Define the character of your new dining table. Choose from four beautifully crafted edge profiles and create a look that perfectly reflects your style.

For both dining and coffee tables.

EDGE 1
Harlekin

EDGE 3
Pisa

EDGE 4
Straight

EDGE 6
Wing

WOOD FINISH

Choose from four carefully selected wood finishes.

UP / WITHOUT PATINATION
The wood is planned and sanded to achieve a smooth surface. With few and smaller knots.
Storage furniture and small pieces leaves can only be made with this finish!

RL / RAW LOOK
We brush off the layer of softer wood which gives a look of wood that has been roughened by natural wear.
May contain more and larger knots.

SC / SOFT CRACKS
Naturally occurring cracks are made more visible which gives a rustic look with cracks in the surface.
May contain more and larger knots.

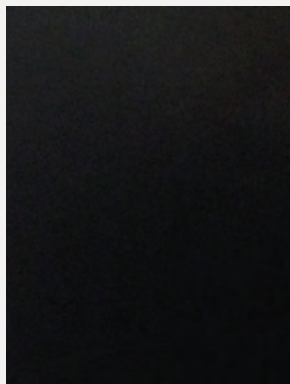

FK / FILLED KNOTS
The knots are filled and the wood is planned and sanded to achieve a smooth surface.
Only for OAK and not possible on legs.

STEEL FINISH

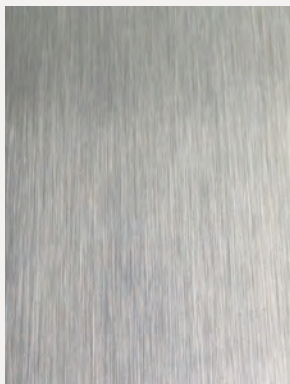

Choose between four steel colours for the leg details on the rectangular dining table and both rectangular and round coffee tables.

A / INDUSTRIAL STEEL
Industrial steel has a raw, matte appearance, with varying color tones created during the manufacturing process.

B / BLACK PAINTED STEEL
Black painted steel has a graphical and simple look, that fits nicely in most homes.

C / BRUSHED STAINLESS STEEL
Brushed, stainless steel has an elegant appearance with a uniform finish created by hand.

M / BRASS
Brass will get natural patina over time. Do not use water or anyother liquid when cleaning – only use a dry cloth!

TECHNICAL DETAILS

Explore the technical options for the Wave range, including size variations, leg positions, and other customization features, allowing you to adapt each design to your specific needs.

FSC® CERTIFICATE

A commitment for a better tomorrow.

CERTIFIED FOR RESPONSIBLE FORESTRY

We are happy to announce that from 2021 we have achieved the certification that enables us to offer FSC®-labelled products. FSC® stands for "Forest Stewardship Council®" and is an international non-profit organisation dedicated to promote responsible forestry. FSC® certifies forests all over the world to ensure that they meet the highest environmental and social standards.

By signing this contract, we have committed ourselves to living up to stricter social requirements. We are proud of supporting the FSC® with their work in looking after the forest workers and the wood industry, as well as fighting unsustainable, illegal forestry and deforestation.

STEP BY STEP TOWARDS BETTER PRODUCTION

We acknowledge that this sustainable transition is a longer journey and not something that happens overnight. But each day they we are committed in doing a little better than yesterday and keep making progress in this matter.

The mark of
responsible forestry
