AMELIA

Amelia is named after the first female pilot to cross the Atlantic. The design of the legs mimics a soft but strong power posture. A newborn classic, that shows the proud traditions in Danish design.

WOOD FINISH

Choose from four carefully selected wood finishes.

UP / WITHOUT PATINATION
The wood is planned and sanded to achieve a smooth surface. With few and smaller knots.

Storage furniture and small pieces leaves can only be made with this finish!

RL / RAW LOOK
We brush off the layer of softer wood which gives a look of wood that has been roughened by natural wear.

May contain more and larger knots.

SC / SOFT CRACKS
Naturally occurring cracks are made more visible which gives a rustic look with cracks in the surface.

May contain more and larger knots.

FK / FILLED KNOTS
The knots are filled and the wood is planned and sanded to achieve a smooth surface.

Only for OAK and not possible on legs.

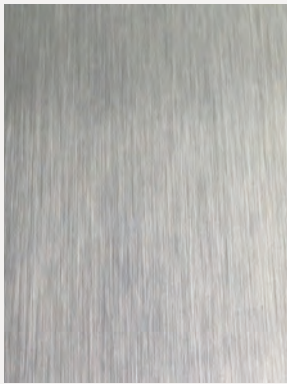

LEG DETAIL

Choose with or without metal details on rectangular and barrel-shaped dining tables and rectangular coffee tables.

M / BRUSHED BRASS
Brass will get natural patina over time.

Do not use water or anyother liquid when cleaning – only use a dry cloth!

C / BRUSHED STAINLESS STEEL
Brushed, stainless steel has an elegant appearance with a uniform finish created by hand.

FSC® CERTIFICATE

A commitment for a better tomorrow.

CERTIFIED FOR RESPONSIBLE FORESTRY

We are happy to announce that from 2021 we have achieved the certification that enables us to offer FSC®-labelled products. FSC® stands for "Forest Stewardship Council®" and is an international non-profit organisation dedicated to promote responsible forestry. FSC® certifies forests all over the world to ensure that they meet the highest environmental and social standards.

By signing this contract, we have committed ourselves to living up to stricter social requirements. We are proud of supporting the FSC® with their work in looking after the forest workers and the wood industry, as well as fighting unsustainable, illegal forestry and deforestation.

STEP BY STEP TOWARDS BETTER PRODUCTION

We acknowledge that this sustainable transition is a longer journey and not something that happens overnight. But each day they we are committed in doing a little better than yesterday and keep making progress in this matter.

The mark of
responsible forestry
